Education

Chinhoyi University of Technology | Bachelor of Mechatronics Engineering **03/2021 - current**
Cumulative GPA : 2.7/4.00

Projects

1. tapiwaellman

- My Portfolio website. I prefer to let my work do the talking on my behalf. Tells you a little bit about me and showcases my abilities. I go above and beyond to stand out from the rest.

2. myfleet

- An enterprise level Fleet Management Web Application. It Allows deliverers to manage all data related to their company all in 1 place. Includes charting, tables, authentication and many more features. Currently being used by *Allea WorldWide*.

3. Logistix

- Landing page template for logistics companies. Nothing says unprofessional as **NOT** having a website. This landing page allows prospects to easily verify how authentic and professional a logistics company is. This means more leads, more customers, hence more money for the logistics company.

4. Zeero

- An e-commerce website that I made with the help of a YouTube tutorial series that I followed along. Over 30 hours of content. Taught me the basic CRUD principles.

Experience and Learning

- My github commits show that I have been coding consistently for the **past 6 months**, trying to learn as much as I can using the free resources that I could find on YouTube
- I have managed to created **5 projects** with the help of Youtube, AI and my mentors.
- **3 projects** – I just followed along the YouTube projects tutorials and coded what they made.

- **2 projects** – used the knowledge from the 5 tutorials I had done to create projects that were more tailor made for the problems I was trying to solve.
- I have gone through over **30 hours** of MERN Stack YouTube tutorials

Hobbies

Fitness – This is the ONLY THERAPY that works for me. I get to keep my mind healthy, plus I also get to look good physically. A bonus!

Cooking- Love to explore different dishes

Travelling – I love meeting and interacting with people of different cultures and backgrounds
